New Business:

Scad Valley Trailhead has been rescheduled for Oct 21 to replace ballers (posts).

The forest service has pre-drilled the holes and placed the ballers in the holes. Don will get with Kacie to make sure we can get more gravel. Don will also see if the forest service grader which is located at the trailhead can do some grading of the parking lot.

Rod and Wayne placed 3 water bars on the horse canyon trail. During all the rain the water bars held. They then rode the trail afterwards and has learned what else needs to be done on the trail. Questions were asked about the direction signs Kacie has ordered. She has the signs, but is waiting on the posts. Rod was at the Fish Creek Trailhead. There are now 7 high spots in the corrals. Don has the panel and I-beam at his place. We may have the schedule this project for the spring of 2027.
