Approved Minutes emailed to membership today

Treasurer's report; financials always available upon request

CFOV/Savings: \$7,381.33; Checking: \$9,221.91

Thanks to Linda and Ed Price who provided the main dish

OLD BUSINESS

- Bryce trips. Turned out nicely; lots of folks went

- Did anyone participate in the coastal clean-up or do anything on National Public lands day? Negative response

- Has anyone followed up by contacting TFNU to volunteer as a board member? Anyone plan on doing it? There's still time if you want. They look for new board members in November and December to start at the beginning of the year. These are not physically attended meetings but are ZOOM meetings.

- CFOV- we haven't done much of anything to get donations this year. We've got funds we need to spend and BCHA has recommended we reduce most of our projects because of COVID. Hopefully next year will be better.

- As the updated minutes stated we cancelled the banquet for this year. The spike in cases in Weber Co was the primary reason. It's not worth the risk. If fewer folks attended then we probably wouldn't raise as much money. The chapter will look at the situation in the spring.

NEW BUSINESS

- We now need to do our elections some other way. The executive board will be sending out an email asking for volunteers and then putting together a ticket and emailing it to members so they can vote. Please consider volunteering on your own or if asked. Our next meeting isn't until January, but we'd like to get the officers elected. Melody has spoken up to be Secretary. All the positions are available.

It was suggested that we appoint King Green serve as Honorary President. Motion accepted. August 5th, King turned 99.

Lyn Taggart addressed the need to get your volunteers hour in. The Google form on the BCHU.com website works and is easy to use.

Membership dues will be discounted through the end of the year, December 31, 2020. Five dollars off individual and family memberships.

Alan Phister needs trailer while he is on his Mission. There are things that need to be inventoried and gone from the trailer. Perhaps the chapter can auction off some of our redundant or unused inventory over a period of years. We need to move the Coleman cooker along to accommodate other items, i.e. (Harrison's and Allen's donated items) which includes about four sets of panniers and 4 pack saddles. Cherie speaking up she may be able to store the trailer during the Phisters' absence. Thank you, Cherie. She confirmed and the trailer has been moved to the Cross residence in Hooper.

Last Item – Julie Heavirland, President, has announced that this is her last meeting as the chapter president. She Thanks the executive staff and all the folks here for all their support throughout the years. We've been able to do some good things for the trails community. It's great to be able to work with the community players like the Forest Service, county parks and Trails Foundation to be able to get the trails in the area improved and more horse friendly facilities installed. BCH is a great organization to be a part of and this chapter is an outstanding chapter that I've been proud to be associated with. I'm going to join the Central Utah chapter in 2021 and just be a good member.

Upcoming Rides: Alan Phister said he'd like to ride Spooky Hollow Trail for Oct 31st at Strawberry Canyon. Tarryn will put the word out.

Ron Hales and Ron Auger, Hal Peck, and Nancy McKay will ride area at Eight Mile. Nov. 7 and 8th.

7:30 meeting adjourned.
